HIGH RISK

This high risk confined space training course is designed for those who enter and work in high risk confined spaces. On this course, delegates will learn how to prepare to work safely, enter and exit confined spaces safely, how to use equipment and tools safely, follow procedures, deal with emergencies and high risk control entry awareness.

Candidates will learn how to:

- Prepare to work safely in high risk confined spaces
- Enter and exit high risk confined spaces safely
- Use equipment and tools safely
- Follow working procedures and work safely
- Deal with emergencies
- Understand the principles of working in high risk confined spaces
- Understand standard protocols for working in high risk confined spaces
- High risk control entry awareness

Duration: 1 day.

Emergency rescue

This course is for anyone who directs the activities of a team for rescue or recovery in confined spaces. This may include rescue team leader, coordinator, entry controller/top person or supervisor in relation to rescue and recovery of casualties, planning and preparing for emergency operations, mobilising rescue teams, directing and monitoring rescue activities, reporting and securing sites after incidents or emergencies.

Delegates attending this course **must** hold valid High Risk certificate.

Topics covered on this course include:

- Plan and prepare emergency operations for rescue teams
- Mobilise a rescue team and direct entry and exit to the confined space
- Monitor a rescue team to ensure procedures are followed
- Understand the principles of working as rescue team leader
- Understand rescue team leader duties and responsibilities

Duration: 1 day.
