27th and 28th May: Confined Space, Medium Risk

30th May: IOSH Safety, Health and Environment

Check out the calendar tab on our website and double-click on any of the courses above, to get more indepth information on course content.

One of the courses on offer this May is the **IOSH Safety, Health and Environment Course**. On Friday 30th May, its classroom based, in our unit on Rome Street. **(Deadline to apply is 15th May)**

So why should you do this course? Well, its for anyone who works on or around a construction site, or has reason to visit construction sites in the course of their work. The benefits of having this is that it provides core knowledge to keep you and others safe onsite. **You need this certificate in order to get your green CSCS card.** Here's Paul, after successful completion of the course. Nice work Paul!

d

We get a lot of enquiries about **CSCS cards**, which have many levels and are required if workers want to go onto most sites (they show a level of expertise and also there's the insurance element too) Pictured is managing director, Keith Dymond, with his gold card.

However, we offer a **wide range** of short courses and we are accredited with various Awarding Bodies meaning we can offer many of the qualifications required by clients and registrations schemes i.e. **City & Guilds, PASMA, NOCN & IOSH.**

These can lead the delegates to acquire qualification card like **SWQR & CSCS.**

Clients like United Utilities, Sellafield and Cumbria County Council have all completed these. **Contact us for more info.**

Congratulations to 2 of our Kings Foundation students, Josh and Aidan, who have successfully completed their NVQ Level 3 in Heritage Carpentry Skills. So important to keep these skills alive. Well done lads. Fascinating!

May 27th and 28th Streetworks Re-assessment

Who is the training for?

For operatives and supervisors who carry out work on public roads and need to renew their skill card. (has 5 years lapsed? Best check!)

Why do they need to do it?

To refresh awareness of the dangers involved when working on public roads and streets and to comply with statutory legislation.

So much construction work going on in Carlisle at the moment. It's all coming together and its going to look fab!

This image is how, what is currently the back of the train station, will look. (The front is going to be more or less pedestrianised.)

Our unit on Rome Street is situated a 5 minute walk from here, making it very easy to arrive on public transport. Exciting times!

Follow us on Facebook: **BTP Cumbria**

Check our website: **www.btp-cumbria.co.uk**

We are on Rome Street in Carlisle (what3words: field.crop.teach)

Alternatively, call us on **01228-739019** for all your construction training needs. Office hours are 8-4pm, Monday to Friday.

Speak to either Jonathan, George or James. They have a wealth of knowledge.

(And there's no such thing as a 'daft question')
